Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant had submitted a "letter" on 4/24/2004 and 4/30/2004 which were intended to be "Amendments" in response to the office action mailed 2/26/2004. However, the LIE never entered the "letters" as an Amendment not was the status of the Application changed to an "Amended" and therefore the application never showed up on the Examiner's Amnded Docket as Amended. Applicant recommended to Applicant, to prevent the Application from going Abandoned and since the Applicant's attempts at writing a specification and claims and to Amened the case were full of errors, an Examiner's Amendment to correct the Specification, Drawings, and Claims to render the claims patentably distinct over the prior art of record and to produce a specification and drawings that are in better conditions for issuance and printing. The proposed Examiner's Amendment was agreed upon and entered as such.
